Our masterplan for Plaistow Place

OUR VISION & MASTERPLAN

Plaistow Place will bring a number of new facilities where residents can live, learn, shop, work, eat and drink.

How the proposals could look from Plaistow Road

A new school for the local community

A new 800 place secondary school, part of the Big Education Trust's vision for the Borough, which already includes an Ofsted 'Outstanding' school in Stratford.

New homes to meet a range of needs

A number of high-quality new homes, providing a mix of market and affordable homes.

New places to eat and shop

Following your feedback, we will also be delivering new retail spaces, a local food shop and caf .

New employment opportunities for local people

Jobs will be created during the construction phase and once the scheme is completed, in both the new school and retail offer provided.

Transforming a vacant and inaccessible site

We will create a high-quality and thoughtfully designed place, with new public spaces, children's playspaces, outdoor areas to eat and relax.
