

How the café could look

NEW RETAIL AND WORKSPACES

Plaistow Place will reimagine this part of the high street with places to drink, eat, shop and work.

- In line with your feedback, we will be bringing four new retail spaces to the area, with at least one new local food shop and a new café.
- New flexible workspaces will be created, which we hope will attract new and existing local businesses and start-ups.
- These retail spaces and workspaces, alongside the new school and future construction work, will provide a number of employment opportunities for local people.
